Shipping Items

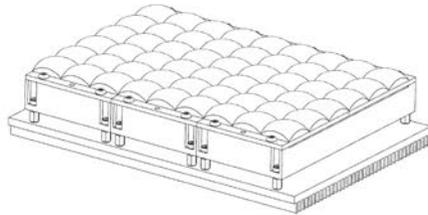

▲ Diffuser panel x 1

◀ Round spacers x 8

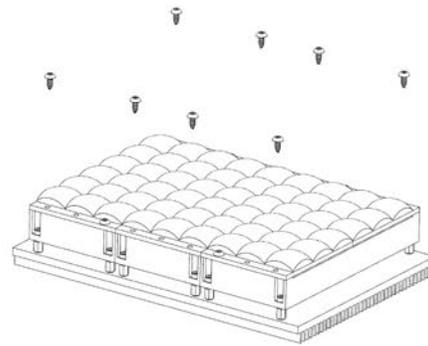

◀ Wooden screws x 8

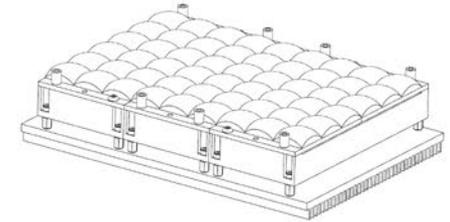

※Please bring your LED unit with you

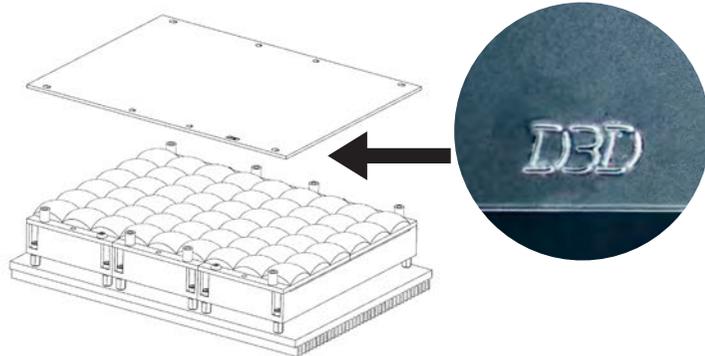

The removed wood screws are not used this time. Please keep it in a safe place for future reference.

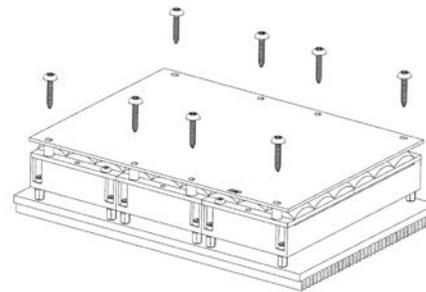

1 Remove the eight wood screws from your LED unit.

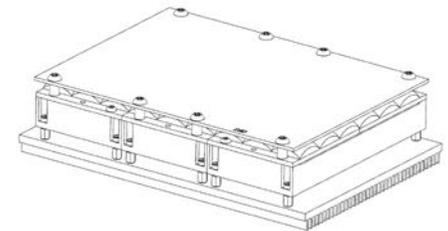

2 Place the attached round spacers in the holes of the removed wood screws.

3 Remove the protective sticker on both sides of the diffuser and place it on the spacer so that the letters on the D3D are properly visible and the frosted side is up.

4 Secure the spacers and diffuser at the same time with the included wood screws.

5 Installation is complete.
